

SEAL  
ARMORGUARD HC

# SUPERIOR FEATURES

## Kelley Exclusive SHARC™

(Super High Abrasion Resistant Compound) fabric features superior wear resistance. Tested and certified to **40,000+ abrasion cycles** which is up to **ten times** the abrasion resistance of the competitive fabrics tested. (Reference Kelley fabric comparison)

1. SHARC full height wear face covers base material on side pads providing superior abrasion and wear resistance, and eliminating the need for side pad wear pleats. The result, improved durability and facility aesthetics.
2. Exclusive EFC (Encapsulated Foam Chambers) Head Curtain includes SHARC 4" exposure wear panels on corners where the toughest contact with trailers occurs. (See details below)
3. Exclusive heat-sealed, full-length yellow guide stripe is embedded in SHARC fabric, effectively welding the two materials together. A superior process versus conventional sewing.
4. Exclusive roll-formed, galvanized steel backer extends product life and is superior to wood construction.

## DESIGN ADVANTAGES

- Highly resilient open celled polyurethane foam keeps original shape and compresses easily to extend the life of the seal.
- 3-year limited factory warranty against defects in materials and workmanship.

## EFC HEAD CURTAIN SYSTEM

- EFC (Encapsulated Foam Chambers) is an exclusive system of trapezoidal shaped foam, formed into 1 inch x 3 inch horizontal chambers.
- EFC chambers envelop the top rear edge of the trailer including door lock bar cutouts.
- Integrated pull rope system allows full adjustability to varying trailer heights.
- SHARC 4" exposure wear panels on high wear zone corners of EFC head curtain.
