

The Commercial HVLS Fan is a low-speed (HVLS) fans set the standard when it comes to moving massive amounts of air where a typical ceiling fan simply can't keep up.

The Kelley Commercial HVLS fan is designed to provide a sleek and stylish design, various color configurations to complement virtually any environment, a low sound dBA level that's so quiet it's like the fan's not even there, and performance far superior to its competitors. Kelley Commercial HVLS fan gives you the ability to mount the control where you want it. With its adaptable and configurable color design options, Commercial HVLS is a fan that truly caters to your unique environment.

COMPLETELY CUSTOMIZABLE

Your personalized Commercial HVLS fan can make a bold statement or quietly blend in. It's totally up to you. From wood grain to elephant skin to your alma mater's colors — you design it, we make it.

Commercial HVLS Fans

Expecting a little more than your average commercial fan? Get to know Kelley Commercial HVLS fan. This energy-efficient solution is powerful enough to keep your space cool and comfortable while eliminating the need for multiple residential fans. Plus, you can put your own stamp on it to create a gorgeous commercial fan that's everything you've imagined.

ENERGY EFFICIENT

There's a lot of power in our fans; you'll likely never have to run it at full speed to control your space. At wattages less than a 100-watt light bulb, you can feel up to 4-7 degrees cooler. Plus, every degree change equals nearly 3% savings on your energy bill. Now that's a breath of fresh air.

*In accordance with the ASHRAE Standard 55-2010 Comfort Calculator

DESTRATIFICATION

Stagnant air is a no-no in any environment, especially in high-traffic areas like malls, restaurants, schools or sporting venues. Kelley Commercial HVLS fans keep the air moving right along, and soft breezes keep patrons comfortable year-round — without cranking the HVAC.

REMARKABLE PERFORMANCE

You can feel the power of our commercial HVLS fan at any speed. Whether you crank it all the way up or keep it down low, you'll get proper cooling, along with the flexibility and functionality you deserve.

KEY FEATURES

- Wired Touch Screen Remote
- Reverse Capability
- 6-14 feet (1.8-4.3 M) in diameter
- Fire Shut Down Integration
- Gearless Direct Drive Motor
- Less Than 35 dBA*

*Results of sound measurement in the field may vary due to variations in surface types, environment and conditions.

Standard Power

120V - 240V 1Ø

240V 3Ø

AVAILABLE COLORS RAL powder coat colors. Custom colors and combinations are available.

The largest HVLS fan, the 24-foot diameter, has been proven to improve airflow in a coverage area of **30,000 square feet**, the largest in the industry.

A large space calls for an equally grand fan. Up to 24 feet in diameter, the colossal industrial fan moves extraordinary amounts of air, alleviates hot and cold spots, and keeps the air in your facility in constant motion. Plus, your space will feel 4-7 degrees cooler, which offers more energy savings in the long run. And when you need to heat things up, the fan features reverse circulation, which ensures that everything stays "just right" year-round.

INDUSTRIAL HVLS FANS

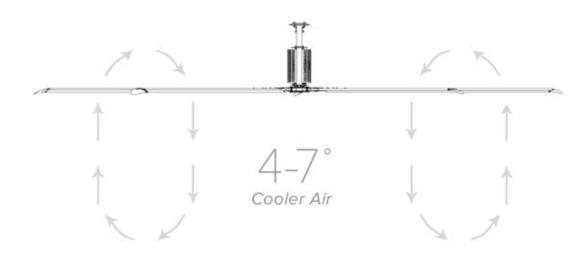

EXTRAORDINARY AIR POWER

SAVE ON ENERGY COSTS

The Kelley Industrial HVLS fans help regulate the temperature from ceiling to floor. Most users can raise their thermostat setting 3-5 degrees for energy savings of up to 3% per degree change. *How cool is that?*

REVERSE CIRCULATION

Our fans help keep your facility warm inside during the colder months. You can run the fans in reverse to circulate trapped hot air at the ceiling level without producing a wind chill effect below.

INDUSTRIAL HVLS FANS

Seeking big fans? Look no further than the Kelley industrial HVLS fan. Its 5-blade design is made to move extraordinary amounts of air, reducing stagnant air, alleviating hot and cold spots and keeping products like food fresh and dry. Not to mention your space will feel more comfortable, with a 4-7 degree perceived reduction in temperature, providing you substantial energy savings in the process.

KEY FEATURES

- Extruded aluminum black or clear anodized blades
- 8-24 feet (2.4-7.3 M) in diameter
- Rotary airfoil winglet design
- Trouble shooting from ground level
- Fire shut down capability
- 55 dBA*

OPTIONS

- Mounting Extension
- Additional Powder Coating Options
- NEMA 4X VFD Enclosure
- NEMA 4X Remote Enclosure
- Corrosion Resistant Package (Consult Factory)
- Multi Fan Remote (2-6)
- BMS Integration
- Slave Remote
- iFan 4.3 (1-12 fans)
- iFan 7.0 (1-24 fans)
- iFan 10.0 (1-30 fans)
