

The Kelley Industrial HVLS Fan encompasses a design with enormous size, performance and savings. Producing a 2-3 mph breeze equivalent to a 4-7 degree reduction in perceived temperature, the Industrial Fan works hard to ensure your facility reaches its full productivity potential.

The Industrial Fan is designed to move extraordinary amounts of air, helping your entire facility run smoothly, while providing substantial energy savings. Not only will you feel the difference of a noticeably cooler space, but you'll also reduce stagnant air, alleviate hot and cold spots and keep food dry and fresh. The Industrial Fan is available in diameters from 8 to 24 feet to accommodate your space and a variety of customization options.

KEY FEATURES

- Extruded aluminum black anodized blades
- 8-24 feet (2.4-7.3 M) in diameter
- Rotary airfoil winglet design
- Trouble shooting from ground level
- Fire shut down capability
- 55 dBA*
